Product Specifications

1: 55'' Floor Standing Advertising LED Display simple (can insert USB to play image)

Technical Information	
Name	55 inch floor stand-alone version full HD advertising machine
Overall Size	1970*800*80mm
Display Size	1209*680mm
Screen Size	55"
Display Resolution	1920*1080 (16: 9)
Color	16.7M
Brightness	450cd/m2
Contrast Ratio	5000: 1
Response Time	5ms
Hardware Features	Ultra-thin body, aluminum-magnesium alloy casing, industrial grade structure design, four anti-treatment (explosion-proof, dust-proof, anti-static, anti-interference), low power consumption and environmental protection,
Working temperature	-10℃~50℃
Working humidity	10%~90%, no condensation
Storage temperature	-40℃~70℃
Decoding capability	Support hardware decoding
Video support	MPG、MPG-1、MPG-2、MPG-4、AVI、MP4、DIV、TS、TRP、MKV、MOV WMV、RM、RMVB
Audio support	MP3、WMA
Image support	JPEG、BMP、PNG
LVDS Interface	universal line sequence LVDS interface
Output resolution	Support full HD (1920x1080)
Storage media Support	Support SD card ((extension), U disk
USB Interface	1 USB external interface
Software Features	Horizontal and vertical screens are free to change; play time definition; time

Product Specifications

display; perpetual calendar; playlist; data card protection function; support screen saver; automatic on and off; scrolling subtitles; power switch protection; play diversity; support multiple playback modes, Audio and video format; arbitrary screen cutting; marquee; modular design; system with embedded, perfect security mechanism; simple operation

Remarks:

Service warranty: 7x24 hours service response, warranty time 1 year

Accessories: Infrared remote control x1, body key x2, warranty card x1

Application occasions:

- 1: Commercial institutions: large shopping malls, chain stores, stores, hotels, restaurants, travel agencies, etc.
- 2: Financial institutions: banks, securities, funds, insurance companies, pawn shops, etc.;
- 3: Public utilities: telecommunications, post offices, hospitals, schools, etc.;
- 4: Public places: subways, airports, parks, exhibition halls, stadiums, museums, etc.
- 5: Real estate: apartments, villas, office buildings, business buildings, model houses, sales offices, etc.;
- 6: Recreation: cinemas, gyms, resorts, clubs, golf courses, etc.

Features

- ★ Support horizontal / vertical screen playback, support screen rotation function
- ★ Boot automatically loop playback
- ★ Support breakpoint memory function
- ★ Ad insertion function
- ★ Support timer switch function
- ★ Support super long flowing caption display function
- ★ Supports the function of copying and deleting files directly on this machine, and supports USB file update function.
- ★ Maximum support 1080P (resolution is 1920*1080)
- ★ Support USB playback, support hot swap, content update is convenient
- ★ Support audio and video formats: MPG, MPG-1, MPG-2, MPG-4, AVI, MP4, DIV, TS, TRP, MKV, MOV, WMV, RM, RMVB, etc.

Product Specifications

- ★ Play mode: single repeat play, folder loop play, full loop play
- ★ Picture playback: rotate, zoom, pan, slide show, background music playback
- ★ Audio mode: left channel, right channel, stereo
- ★ OSD multi-language: support Chinese, English and other multi-language
- ★ Support for Chinese and English streaming scrolling subtitles. External subtitles
- ★ With perpetual calendar function
- ★ Support USB direct program update and upgrade

Program advantage

- ★ Full HD support
- ★ Support true 1080P full HD playback.
- ★ Perfect performance of hardware performance, smooth playback
- ★ Video switching such as white space
- ★ Walk the light of the lanterns like a cloud of water
- ★ Easy to learn and use, simple and convenient, no complicated training required
- ★ Single installation package, click all the way
- ★ Flexibility and freedom, whatever you want
- ★ You can make programs based on existing scenes, or you can make programs directly;
- ★ The playing time can be set arbitrarily according to the date, time, week, or the default is no ★ Both horizontal and vertical screens are supported
- ★ Stable and reliable
- ★ Professional quality pursue

Product Specifications

2: Floor Standing Advertising LED Display android type (you can use computer to tele-control the play image)

Technical Information.	
Model	55 inch floor-standing online advertising machine
physical dimension	1970*800*80mm
Display size	1209*680mm
Screen parameter	
Resolution	Full height cleaning 1080P 1920*1080 (16: 9)
Color	16.7M
Brightness	450cd/m2
Contrast	5000: 1
Response time	5ms
Interface	
Enter	USB2.0*2, TF2.0*1, RJ45*1
Motherboard specifications	
CPU	Rock chip RK3188 dual core frequency 1.6GHz
RAM	Preloaded 1GB DDR3
Built-in memory	Preloaded 8GB
Decoding resolution	Maximum support 1080P
Operating system	Android 4.2.2
LVDS output	Can directly drive 50/60Hz LCD screen
Hardware Features	
Play mode	Support loop, timing, insert and other playback modes
WIFI	802.11 1x1 BGN
Video playback	Support MPEG-1、 MPEG-2、 WMV9、 AVI(3.11)、 XVID、 H264, 1080P/60
Image Format	Support BMP、 JPEG、 PNG、 GIF
Ethernet	1pc, 10M/100MAadaptive Ethernet, RJ-45 interface
3G function (Optional)	Support WCDMA/CDMA 2000
4G function (Optional)	FDD-LTD/TDD-LTE (4G The network can be downloaded at 100Mbps, and the upload speed can reach 20Mbps)
RTC real time clock	Support
Timer switch	Support
Reset	Support
Online system upgrade	Support
Amplifier speaker	8Ohm 5W*2
IR	Support
Working environment

Product Specifications

Operating temperature	-10℃~50℃
Working humidity	10%~90%, no condensation
Storage temperature	-40℃~70℃
Electrical Specifications	
Power input	AC 100~240V 50/60Hz
Total power	≦ 150W
Standby power consumption	≦ 1W
Other	Compatible to drive a variety of TFT LCD display
	Industrial-grade structural design, four-proof treatment (explosion-proof, dust-proof, anti-static, anti-interference), low-power environmental protection
	Support USB upgrade, network upgrade
Software features	Horizontal and vertical screen free to change; play time definition; time display; perpetual calendar; playlist; data card protection function; support screen saver; automatic opening and closing; rolling subtitles; power switch protection; playback diversity; support for multiple playback modes, audio and video formats ; arbitrary screen cutting; modular design; complete management mechanism; centralized management; support remote / local management; hierarchical rights management; system using Android 4.2.2, perfect security mechanism;

Remarks: Service time: 7x24 hours service response, warranty time 1 year

Accessories: Infrared remote control x1, body key x1, warranty card x1

Application occasions:

- 1: Commercial institutions: large shopping malls, chain stores, stores, hotels, restaurants, travel agencies, etc.
- 2: Financial institutions: banks, securities, funds, insurance companies, pawn shops, etc.;
- 3: Public utilities: telecommunications, post offices, hospitals, schools, etc.;
- 4: Public places: subways, airports, parks, exhibition halls, stadiums, museums, etc.
- 5: Real estate: apartments, villas, office buildings, business buildings, model houses, sales offices, etc.;
- 6: Recreation: cinemas, gyms, resorts, clubs, golf courses, etc.

Overview of the main functions of the management platform

★Terminal management

★Terminal configuration: import terminal, modify terminal information, set the group where the terminal is located, etc.

★ Terminal monitoring: real-time monitoring of the terminal's networking status, download progress, version information, operation information, etc.

★Interstitial message: Instantly insert instant messages to the terminal

Resource Management

Product Specifications

- ★Material management: upload, preview, sort, delete and other functions of media materials
- ★Pre-download management: pre-downloads materials that may need to be played in the future
- ★Template creation: Making reusable templates
- ★Material type: video, picture, text, PDF

Program Management

- ★Program release: new creation, editing, approval and release of the program
- ★Program management: program production, management, release, download management, deletion, backup

System settings

- ★Management settings: user management, role management, organization management, group management, parameter setting, data collection service

System log

- ★System log: user operation log, material statistics

Integration

- ★Integrated USB/LVDS/Ethernet/HDMI/WIFI in one, simplifying the whole machine design, pluggable SD card
- ★4GB, maximum expendable up to 32GB
- ★Support USB, DVP HD camera
- ★Support 3G, 4G functions

High Definition

- ★Supports up to 1080P decoding and various LVDS signals LCD\LED display
- ★Support high-definition picture video playback, add picture effects switch, program template free to cut split screen, support HTML insert

Complete function

- ★Support horizontal and vertical screen playback, video split screen, rolling subtitles, time switch, USB data import and other functions
- ★ Diverse content: pictures, videos, text, time, calendar, weather
- ★ Controllable program: time switch, timed broadcast, program scheduling
- ★ Multi-camera simultaneous playback: all machines play the same program while switching

Perfect management

- ★Multi-level, hierarchical management mode, multiple priority rights management terminals
- ★User-friendly playlist creation software for easy ad playback and control

Product Specifications

- ★The approval process of the program release makes the program information more accurate
- ★ Instantly post urgent information, emergencies, and insert media files
- ★Multiple program distribution methods: USB, LAN broadband, wireless WIFI, 3G, 4G network Switching machine, restart directly controlled by background software, more controllable Play log records to let people know more about the playback situation

Perfect performance of hardware performance, smooth playback

- ★ Video switching such as white space
- ★Multiple image switching effects
- ★ Rolling subtitle texts like flowing water, colors, fonts, backgrounds

Easy to learn and use, simple and convenient, no complicated training required

- ★Single installation package for easier installation
- ★Powerful background software, detailed and comprehensive software panel, easy to complete program production and management
- ★Diverse content, create various programs at will, and integrate management in various ways

Flexibility and freedom, whatever you want

- ★IP registration terminal, publishing programs in various ways
- ★You can create a program based on an existing template, or you can make a program directly on your own.
- ★Can distribute programs through wired, wireless WIFI, 3G, 4G management, and can also be exported through U disk to adapt to applications without network environment.
- ★Drag and drop the mouse to set the position and size of the split screen area
- ★The text foreground color, background color and transparency can be set arbitrarily, which can be combined to achieve rich effects such as hollowing out, superimposing, translucent, and ribbon.
- ★Multiple scrolling speeds are available
- ★The playing time can be set arbitrarily according to the date, time, week, or the default is no limit.
- ★Provides page template screen parameter settings to create various screen program templates
